ACA PERMIT FINDER PHASE II

Updates to the Arizona Permit Finder

Phase II of Arizona's Permit Finder enables users to create custom project areas and view permit requirements with new features.

- **Upload Area:** To view permits and agencies within a specific area, add data and reference layers including Shapefile, CSV, KML, GeoJSON, GPX, or FGDB file.
- **Draw Area:** Create custom map layers for precise visualization.
- **Export Tools:** Export custom areas to review relevant agencies and permits.
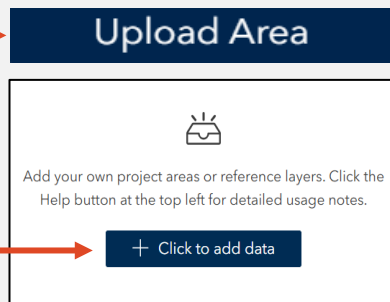

For technical assistance support, please refer to the 'About' button in the top right corner of the tool.
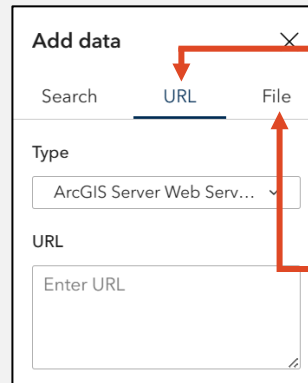

Upload Area

1) Main Menu: Select 'Upload Area' at the bottom of the left menu.

2) Add Data: Click the blue button in the middle of the left menu to add Areas.

Upload Area

Add your own project areas or reference layers. Click the Help button at the top left for detailed usage notes.
