

Manufacturing Excellence: Leadership, Productivity, and Results

Elevate your leadership with our **Manufacturing Excellence: Leadership, Productivity, and Results** series - a dynamic, hands-on program crafted to empower managers with the skills to enhance team performance, build accountability, and champion a Lean-focused culture. Participants will gain actionable strategies for problem solving, coaching, production planning, and operational leadership, leaving ready to create measurable improvements and inspire their teams to achieve excellence. Strengthen leadership, drive operational excellence, and build a culture of continuous improvement through this comprehensive training program.

This program will consist of 6 essential classes and will be delivered in 4 hour increments, **every Wednesday, March 3 - April 7, 2027**. The topics are listed below with a course description and class dates on the following page.

- Session 1: Leadership in a Production Environment (March 3rd)
- Session 2: Managing for Daily Improvement (March 10th)
- Session 3: Turning Problems into Solutions (March 17th)
- Session 4: Continuous Improvement Tools and Techniques (March 24th)
- Session 5: Managements Role in Production Planning (March 31st)
- Session 6: Coaching for Performance (April 7th)

Who Should Attend:

Production Managers, Production Supervisors, Production Leads. Small Manufacturing Business Owners. Anyone aspiring to learn the necessary tools required to manage a successful manufacturing production line.
